

LASTS FOR UP TO 6 MONTHS INCREASES PPM FROM 400 TO 800

5L (1.35 gal) CO2 Refill increases CO2 levels in areas up to 1.2m x 1.2m / 4ft x 4ft

10L (2.7 gal) CO2 Refill increases CO2 levels in areas up to 2.4m x 2.4m / 8ft x 8ft

DIRECTIONS FOR USE

To activate your CO2 Refill empty the contents of this bag into your CO2 Generator bucket.
Then add hot (not boiling) water at the following amounts according to the size of your CO2 Refill:

5L (1.35 gal) CO2 Refill - add 1.25L (0.33 gal) of water to the CO2 Generator bucket

10L (2.7 gal) CO2 Refill - add 2.5L (0.66 gal) of water to the CO2 Generator bucket

Allow 24hrs before you use the CO2 Generator.

This 24hr period is essential in order for the contents to properly activate.
